The result of the vote was announced as above recorded.

RECOGNIZING KEIRA D'AMATO

(Ms. SPANBERGER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. SPANBERGER. Madam Speaker, I stand here to recognize the incredible achievement of Midlothian resident Keira D'Amato.

Earlier this year, Keira broke the American record for the women's marathon, winning the Chevron Houston Marathon with a 2-hour, 19-minute, and 12-second finish. For those of you keeping score, that is 24 seconds faster than the previous record set back in 2006.

This new record demonstrates Keira's remarkable resiliency, it shows her undeniable passion, and it highlights her proven ability to overcome injuries and adversity.

As a mother of two, Keira is not just a winner, she is an ambassador for her

sport. Her enthusiasm is already inspiring the next generation of Virginia marathon runners.

Today, on behalf of Virginia's Seventh District, I want to congratulate Keira for making Chesterfield County, central Virginia, and our entire Commonwealth proud. We are honored to be the home of a true American champion.

HONORING ROY AND WILMA BROWN

(Mr. ROSE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROSE. Madam Speaker, today, I rise to honor Roy and Wilma Brown, who celebrated their 80th wedding anniversary this Monday.

Married on March 14, 1942, at the Cumberland County Courthouse, Roy and Wilma have remained at each other's side ever since.

Through the ups and downs of raising five children on a family farm in middle Tennessee, in the early days with no running water or electricity, the Browns have been no stranger to hardship but have always leaned on the Lord. On their 69th anniversary, Wilma said: "God has blessed us so much, and we are so thankful."

Madam Speaker, today, I thank Roy and Wilma Brown for serving as a reminder to all of us, both young and old, of the power and longevity of true love. May both Roy and Wilma have a blessed 80th anniversary, and may this day serve as an inspiration for generations to come.

INCREASING EtO AWARENESS

(Ms. NEWMAN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. NEWMAN. Madam Speaker, I rise today for Matt Haller. Matt Haller was an Illinois resident who passed away in 2019 from stomach cancer that is believed to have been linked to the local EtO sterilization plant near his home.

These same EtO cancerous chemicals are used today to sterilize an assortment of foods in the United States. While the chemical is clearly banned for food sterilization in other countries around the globe, it continues to be used in America for everyday food products like spices, dried herbs, dried vegetables, and much more. Food sterilized with EtO does not even require food labeling in the U.S.

I am introducing the Matt Haller EtO Awareness Act to finally change that. This commonsense legislation would provide Americans the right to know if food has been treated by known carcinogenic substances through accurate labeling.

Let's increase transparency around EtO, let's bring awareness to cases like Matt Haller's, and let's pass this bill.

HONORING JASMINE MORAN

(Mrs. BICE of Oklahoma asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BICE of Oklahoma. Madam Speaker, I rise today to honor the remarkable life of Mrs. Jasmine Moran, an admirable Oklahoma Fifth District philanthropist.

After surviving World War II in England, she uprooted her life to move to Seminole after meeting her husband, an oil man from Oklahoma.

Inspired by a children's museum in Michigan, Mrs. Moran decided to start her own in Seminole in hopes of reigniting the city. Eventually, her idea came to life, and she created a world-class children's museum that attracts 70,000 visitors a year.

But she didn't stop there. Almost single-handedly, Mrs. Moran created an animal shelter that adopts out 75 animals a month.

Mrs. Moran's generosity, resilience, and commitment to the betterment of her community and everyone around her is truly inspiring.

Though she will be deeply missed, there is no doubt that through her selfless endeavors, her legacy will live on forever. Mrs. Moran's story and the way she lived her life should stand as an inspiration to all Oklahomans.

RELIEF FOR VICTIMS OF DOMESTIC VIOLENCE

(Ms. JACKSON LEE asked and was given permission to address the House for 1 minute.)

Ms. JACKSON LEE. Madam Speaker, I rise today to indicate that finally we have passed and signed into law the Violence Against Women Act.

After years of introducing it and passing it in the United States House of Representatives, we came together, and today at the White House, relief has been given to the millions of victims of domestic violence, rape, and sexual assault.

We provided the opportunity for enhanced police efforts for trying to stop the most dangerous calls of police officers: domestic violence; dealing with cultural groups that respond to this in a different way; and once and for all, stopping the dastardly act of raping Indian women and escaping prosecution. Now we allow the courts on Indian reservations to be able to bring people to justice.

We have provided a place for abused persons to live. We have given more money to area shelters, like the Houston Area Women's Shelter, and we responded to the advocates across America.

I am glad to have written and authored H.R. 1620. I thank all of those who ultimately brought that bill to law. Now, the President has done what he has always wanted to do, to have the Violence Against Women Act reauthorized.

STOP THE ASSAULT ON AMERICAN ENERGY

(Mr. CARL asked and was given permission to address the House for 1 minute.)

Mr. CARL. Madam Speaker, over the past few weeks, we have made it very clear how important it is for the United States to produce its own energy rather than rely on other countries for our supplies.

The President and his allies have made things very clear that this is the thing that they want to do, shutting down American energy production, but the reality truly is that we can produce energy cleaner and more efficiently than any other nation on the planet.

This administration decided to shut down American pipelines and shut down American energy production, which has done nothing but drive up the energy costs while threatening our national security and strengthening our adversaries around the globe. We simply cannot allow this to continue.

President Trump's hard work to increase energy production and his leadership actually made us energy independent instead of energy dependent during his time.

America has the resources and the ability to meet our supply needs, and I encourage the President to end his assault on American energy.

BRING BACK AMERICAN ENERGY INDEPENDENCE

The SPEAKER pro tempore (Ms. JACOBS of California). Under the Speaker's announced policy of January 4, 2021, the gentleman from Louisiana (Mr. JOHNSON) is recognized for 60 minutes as the designee of the minority leader.

GENERAL LEAVE

Mr. JOHNSON of Louisiana. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the subject of my Special Order.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

Mr. JOHNSON of Louisiana. Madam Speaker, we have another crisis, yet another crisis, created by the policy choices of this White House.

The national average price for a gallon of gas reached \$4.32 on Sunday; and, yes, that is the highest price in U.S. history.

Last Thursday, we also learned that U.S. inflation soared 7.9 percent over the past 12 months. That is the largest spike in consumer prices in 40 years.

Now, the Washington Democrats' blame game is in full swing. Just to get this straight, at first, according to Democrats, they said inflation "wasn't happening." Then inflation was "merely transitory," they tried to convince us. Then inflation somehow only hurt
